

TEMPO

FLEXIBLE PACKAGING

Health and Safety Policy

Tempo Flexible Packaging (TFP) is committed to the well being of all our employees. The creation of a system that provides a safe and healthy work environment is most important to TFP. Each organizational head will be held accountable for ensuring that the Health and Safety Systems and procedures are followed.

Every member of TFP will be trained and obligated to practice the procedures defined within the Health and Safety Manual which includes working safely and reporting issues requiring Corrective Action.

Only members of TFP, invited customers, suppliers or contracted workers will be allowed on the plant floor. Those invited will also have to comply with our Health and Safety Policy.

All activities or work duties must comply with the Occupational Health and Safety Act (OHSA) and any legislated requirements.

The *Joint Health and Safety Committee* will maintain and keep current the Health and Safety System through statistical monitoring and, will identify issues for Corrective Action intended to improve the level of safety on the job.

The Health and Safety Policy is posted throughout the plant.

Lee-Anne Giglio
Chief Operations Officer
