

**TEMPO**  
FLEXIBLE PACKAGING

## Quality Policy

Tempo Flexible Packaging is committed to satisfying its customers, complying with provincial legislated regulations for the health and safety of its employees, and achievement of the standards established within FSSC 22 000 and GFSI IFS PacSecure.

Products purchased by our customers will achieve or exceed their expectation of product quality in the areas of functionality, appearance and process-ability. We will actively pursue satisfying new and existing customers by providing products we manufacture that are processed correctly, and to specifications the first time and every time thereafter.

The COO and CEO are responsible to create measurable short, medium and long-term quality objectives associated with achieving results to support this policy. Senior management will also provide adequate resources for the successful implementation, continuous improvement, maintenance, and operation activities associated with the provisions of this policy.

Those activities include establishing the unique responsibilities and accountabilities of personnel at all levels and functions within the organization, in order to ensure achievement of the commitment to the policy and compliance to procedures established.

The Quality Policy is available throughout the Company.

Lee-Anne Giglio  
Chief Operations Officer
